RESEARCH EXPERIENCE

Research Assistant, Department of Statistics, University of Wisconsin–Madison

Project: Twitter Flocks (2018/06 - 2018/12)

Adviser: Professor Karl Rohe

- Co-constructed an automated system that collects daily Twitter data via Twitter API.
- Conducted community detection of the political Twitter based on social network structure and interpreted flocks of like-minded users.
- Analyzed and visualized daily chatter of the political flocks and created an interactive website: murmuration.wisc.edu.

Research Member, School of Journalism and Mass Communication, University of Wisconsin–Madison

Disinformation Group (2017/11 - 2019/05)

Adviser: Professor Chris Wells

- Led a project that investigates Russian disinformation actors' accumulation of Twitter followings.
- Collaborated with colleagues to study disinformation actors' media uptake and identity performance.

Research Leader, School of Journalism and Mass Communication, University of Wisconsin–Madison

Social Media & Democracy (2016/08 - 2018/08)

Adviser: Professor Dhavan Shah

- Led a project that collects mass shooting Twitter data and applies hashtag grouping and machine learning for automated text analysis.
- Collaborated with faculty members to examine complex communication ecology using time series modeling.

Research Assistant, School of Journalism and Mass Communication, University of Wisconsin–Madison

Project: Fact Check Effects (2016/02 - 2018/05)

Adviser: Professor Al Gunther

- Created question items and programmed surveys to probe partisan beliefs and attitudes.
- Conducted multilevel and mediation analyses to test the relationship between perception of fact check and attitudinal change.
